

C API

Python API

Fortran API ...

RSF File

```
graph TD; C[C API] --> RSF[RSF File]; P[Python API] --> RSF; F[Fortran API] --> RSF;
```

The diagram illustrates the relationship between different programming language APIs and an RSF File. At the top, there are three boxes: 'C API' with a red border, 'Python API' with a blue border, and 'Fortran API' with a green border, followed by an ellipsis. Arrows from each of these three boxes point downwards to a single box at the bottom labeled 'RSF File'.
